Speculative Sentiment on New York Market Is Still Irregular.

BETTER TONE AT CLOSING

Union Pacific and Southern Pacific Almost Monopolized Trading Yesterday.

(By Associated Press.)

NEW YORK, June 16.—Speculative sentiment continued much unsettled to-day by the proposed preferred stock issue by Southern Pacific. The feverish tone of Union Pacific and Southern Pacific in the carly dealings kept traders out of the general market, and these two stocks almost monopolized the trading. When they settled down to about last night's level the rest of the market took on a better tone and was inclined fo advance slowly on light transactions. Opinions were greatly mixed over the relative benefits of burdens to Union Pacific and Southern Pacific of the preferred stock issue. There was an active demand for Southern Pacific 4s in the bond department on the ground that the funding of the florting debt into contingent dividend capital instead of into ixed interest-bearing bonds added to the security of the bonds. Southern Pacific preferred (when issued) sold on the curb at 121 and the rights to subscribe at par at 31-4 to 1-4.

There was very little in the general market. The advance in Consolidated Gas was on the oxecution of a large single order and was not explained. The reduction in the dividend rate of large single order and was not explained. The reduction in the dividend rate of Lake Eris and Western preferred and the poor showing or quarterly and semi-sump between the simulating factors, but the market was indetermate throughout, and the close was heavy and below the best. Some of the active speculative bonds made the market irregular by their declines, but the market was generally firm. Total sales, par value, \$1,70,000. United States 2s, the old 4s, registered, and the new is advanced 1-8 and the old 4s, coupon, 1-4 per cent. on call.

Work on the Southern. (Special to The Times-Dispatch.)

(Special to The Times-Dispatch.)
ORANGE, VA. June 18.—Workmen are now arranging a place in the Episcopal Church for the new organ. It is much larger and taller than the old one, and some of the brick work above has to be taken out. The new organ will be here in ten days, or two weeks.

The grading of the double track of the Southern Relitway, between here and Rapidan is about completed. The iron bridge over the Rapidan River will soon be completed.

Canc's Cut, about two miles north of here, is about finished. Some little dressing of the cut and trimming the edges of the hill will complete the work.

The work of excavating Care's Cut was begun in March, 1903, and worked night and day all through the summer, and aimost every day through the winter.

This is one of the longest and deepest cuts on the Southern Rallway. The new grade is about eleven feet deeper than the old road bed. This is done to do away with the heavy grade between Coster and Rapidan.
